HITESH KUMAR

7067851135 | kumhit871@gmail.com | GitHub | LinkedIn | LeetCode |

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java, MATLAB

Core Competencies: Data Structures and Algorithms, Operating Systems, Object-Oriented Programming (OOP), Database Management Systems (DBMS)

Libraries/Frameworks: NumPy, Pandas, Scikit-learn

Tools & Technologies: Git, GitHub, VS Code

Web Technologies: HTML, CSS, JavaScript

Other Skills: Machine Learning Basics, Cloud Computing

Soft Skills: Problem-Solving, Time Management, Adaptability, Creativity, Conflict Resolution

CERTIFICATIONS

- The Bits and Bytes of Computer Networking (Coursera) – Google — Certification Link
- NPTEL (Introduction to Machine Learning) – IIT Madras — Certification Link

WORK EXPERIENCE

AI & Cloud Technology Intern

Edunet Foundation (in collaboration with AICTE & IBM SkillsBuild) *Sept 2025 – Oct 2025*

- Completed a rigorous 4-week internship focused on **Artificial Intelligence and Cloud Computing**, gaining practical exposure to industry-relevant tools and technologies.
- Developed hands-on experience by working on **real-world AI use cases**, leveraging cloud-based platforms through IBM SkillsBuild.
- Applied core AI concepts such as **machine learning workflows and data processing** to solve practical problems.
- Strengthened understanding of **cloud infrastructure, deployment models, and AI integration** in scalable environments.
- Collaborated in a structured learning environment, improving **problem-solving, adaptability, and technical communication skills**.
- Successfully earned a **Certificate of Completion** from Edunet Foundation and AICTE.

EDUCATION

Vellore Institute of Technology, Bhopal

- Bachelor of Technology in Computer Science and Engineering (BTech), **CGPA: 8.46** *Sept 2023 – May 2027*

Holy Family Convent School, Bhopal

- Senior School Certificate Examination (SSCE), **Percentage: 87.8%** *2022 – 2023*
- Secondary School Examination (SSE), **Percentage: 92.6%** *2020 – 2021*

PROJECTS

Medicine Recommendation System – Project Link

- Collaboratively designed and developed a machine learning (ML) software application to assist healthcare professionals and patients.
- Identifies probable diseases based on patient-provided symptoms and recommends precautions, medications, diet, and workout plans.
- Designed for integration with existing healthcare information systems such as Electronic Medical Records (EMRs) and pharmacy management systems.
- Technology: Python, HTML, CSS, JavaScript.

ACHIEVEMENTS

- Solved 150+ coding problems on LeetCode with a contest score of 1500+.
