

HITESH KUMAR

7067851135 | kumhit871@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#) |

SKILLS

- ♦ **Programming Languages:** Java, C++, Python, SQL
- ♦ **Core Competencies:** Data Structures and Algorithms, Operating Systems, Object-Oriented Programming (OOPs), Database Management Systems (DBMS)
- ♦ **Web Technologies:** HTML, CSS
- ♦ **Libraries / Frameworks:** NumPy, Pandas, Scikit-learn
- ♦ **Tools & Platforms:** AWS, Git, GitHub, Power BI, MySQL Workbench

CERTIFICATIONS

- ♦ The Bits and Bytes of Computer Networking — Google (Coursera)
- ♦ Introduction to Machine Learning — IIT Madras (NPTEL)

EXPERIENCE

AI & Cloud Technology Intern - Edunet Foundation

Sept 2025 – Oct 2025

- ♦ Completed a 4-week internship focused on Artificial Intelligence and Cloud Computing.
- ♦ Worked on real-world AI use cases using cloud-based platforms via IBM SkillsBuild.
- ♦ Applied machine learning workflows and data processing techniques to practical problems.
- ♦ Gained hands-on understanding of cloud infrastructure, deployment models, and scalable AI integration.
- ♦ Strengthened problem-solving, adaptability, and technical communication through collaborative tasks.

EDUCATION

Vellore Institute of Technology, Bhopal

Sept 2023 - May 2027

- ♦ Bachelor of Technology in Computer Science and Engineering (BTech), **CGPA: 8.53**

PROJECTS

Medicine Recommendation System - [Project Link](#)

- ♦ Collaboratively designed and developed a machine learning (ML) software application to assist healthcare professionals and patients.
- ♦ Identifies probable diseases based on patient-provided symptoms and recommends precautions, medications, diet, and workout plans.
- ♦ Designed for integration with existing healthcare information systems such as Electronic Medical Records (EMRs) and pharmacy management systems.
- ♦ Technology: Python, HTML, CSS, JavaScript.

Smart Inventory System – [Project Link](#)

- ♦ Developed a desktop-based inventory management system improving product tracking, stock monitoring, and sales management efficiency.
- ♦ Implemented secure user authentication and an interactive real-time dashboard displaying key insights such as total products, low-stock alerts, categories, and sales performance.
- ♦ Built a sales management module with auto-calculation of totals and integrated data visualization using bar charts for better revenue analysis and decision-making.
- ♦ Technology: Java (Swing), MySQL, JDBC, JFreeChart.

ACHIEVEMENTS

- ♦ Solved 250+ DSA problems on LeetCode and GeeksforGeeks, covering arrays, trees, graphs, and dynamic programming.
- ♦ Achieved contest ratings of 1500(LeetCode) and 1200(Codeforces), demonstrating strong algorithmic and competitive programming skills.
